About us

Peelah Company Limited is an engineering services and consultancy firm. We offer scalable power, construction and related technical and commercial solutions. We are intentional about incorporating global best practices in the delivery and execution of our projects such that our clients' needs are satisfied in the most cost effective and efficient way. Innovation, Excellence, Professionalism and Integrity are the guiding principles that drive our business.

At Peelah, we are passionate about providing services that result in economic growth and create positive impact on the society. Through our work we have steadily contributed to bridging the gap between energy demand and supply in the nation. We are known for delivering bespoke power projects that meet our contractual agreement with our clients while ensuring global standards are not compromised.

The company was established by a team of professionals with several decades of combined experience who share common values of excellence, innovation, professionalism and integrity. These values are the basis for the continued success we have recorded over the years at Peelah Company Limited.

At the core we are a customer-centric firm and we thrive on delivering exceptional services to our clients, assuring our clients of receiving the requisite value for their investments. Peelah Company Limited is registered with the Nigerian Electricity Management Services Agency (NEMSA).

VISION

To be the best engineering and power solutions provider in the country delivering quality valueadded services at every turn.

MISSION

We are committed to satisfying our client's needs through timely provision of cost-effective solutions, within reasonable budget and employing appropriate standards to ensure prompt service delivery in a way that promotes sustainable development.

We are a
Meter Asset provider (MAP),

and
**Electrical Energy Metering
Services Class A1 (EEMS).**

Licensed by
**Nigerian Electricity Regulatory
Commission (NERC)**

Our Core Values

Our Values reflect the way we do business. They are the norms and beliefs that drive the way we work and how we measure ourselves.

We're Lean: We create value for our customers and drive continuous improvement. We're thoughtful and agile, continuously challenging our ways of working to improve productivity, health and safety, eliminate waste and enhance quality to make us more competitive.

We're Expert: Our highly skilled colleagues and partners set us apart. We're experts of today that inspire the leaders of tomorrow. We invest in our colleagues, building their skills and knowledge to develop a passionate, world-class workforce drawn from all parts of our society.

We're Trusted: We deliver on our promises and we do the right thing. Thus, building trust every day by delivering on our promises. We're accountable for our decisions and work with upmost integrity to ensure we're making the right choices.

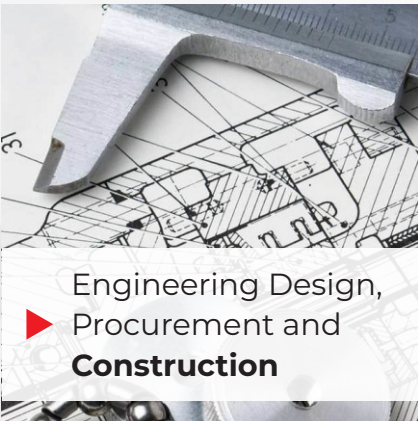

We're Safe: We personalize safety as safety is our license to operate. Nothing is more important than the wellbeing, health and safety of our colleagues and the communities we serve. We are unrelenting and uncompromising in our commitment to achieving zero harm.

We're Sustainable: We act responsibly to protect and enhance our planet and society. We leave a positive legacy for the people we work with, the communities we work in, and the world in which we operate. We want to enhance our impact on the environment, working with our supply chain partners, customers and communities to ensure our choices are sustainable.

Our Services

MANAGEMENT TEAM

Peleah Company Limited is managed by a multidisciplinary team with many years of combined working experience in Power and Civil Engineering Construction. The power division of the company is headed by engineers with over 32 years engineering experience serving in diverse roles in Nigeria Electricity Supply Industry (NESI), while the Building & Civil Engineering division is headed by Engr. Wale Odeleye Msc Civil Engr, MNSE, PMP who has almost 3 decades of experience in building and civil engineering infrastructure, Railway, Nuclear Power Generating Plant Construction, Water Infrastructures (Sewage & Fresh Water), Residential & Commercial Buildings both in Nigeria and United Kingdom.

Engr. Adeyinka Ayileka FNSE

Chairman

Engr Ayileka is an exemplary leader and professional who has over 36 years active engineering experience in the Nigerian Power and Telecommunications Sector.

His stellar career has seen him function in varying leadership roles at different echelons through the years delivering on assigned performance target. His leadership of the Technical Division, of Ibadan Electricity Distribution Company transform the operational activities therein resulting reduction of work-related accidents and improvement of operational efficiency.

Engr Ayileka has a Master's of Science Degree in Electrical Engineering from the Technical University of Varna, Bulgaria. He has undergone an array of leadership trainings both here in Nigeria and overseas. He is a distinguished fellow of the Nigerian Society of Engineers and a Registered Engineer with the Council for the Regulation of Engineering in Nigeria (COREN).

Engr. Peter Oyelami FNSE

MD/CEO

Engr. Oyelami is a thoroughbred professional with unmatched hands-on experience in the Nigerian Power Industry with his career traversing across all tiers of the electricity value chain in the nation.

Throughout his over 32-years career, he worked across different states in several roles receiving accolades and recognitions for his incredible performance. He is known for his exceptional leadership traits and people management skills which he leverages on to deliver outstanding results time and time again. He is a go getter, a visionary leader and an excellent manager who has an undisputed ability to utilize scarce resources to execute deliverables in a timely manner.

Engr. Oyelami served as the pioneer employee in the Procurement Department of the defunct Power Holding Company of Nigeria (PHCN), Ibadan Zone wherein he successfully oversaw the procurement processes from 2009 to 2014.

He has a Higher National Diploma (HND) in Electrical Engineering from The Polytechnic, Ibadan and obtained a Post Graduate Diploma (PGD) in the same discipline from Federal University of Technology, Akure. He has undergone several international and local trainings including the globally acclaimed ETAP 114 Workshop on Intelligent and Digitalized Power System Management Programme in the United Kingdom.

He is a COREN Registered Engineer and a distinguished Fellow of the Nigerian Society of Engineers (NSE), member of the Nigerian Institution of Electrical and Electronic Engineers (NIEEE) and Nigerian Institution of Power Engineers (NIPE).

Engr Wale Odeleye MSc Civil. (MNSE, PMP)

Project Director

Wale Odeleye is a highly skilled UK trained Civil Engineer with over 29 years experience of providing excellent standard of work and supervising large scale projects.

As a PRINCE2 Certified Project Management Professional, he is known for delivering projects on time and according to schedule without compromising quality ensuring client satisfaction time and time again.

He is a contractor of excellent repute who has led several multifunctional teams on different construction projects such as tunnel construction, railway engineering, sewage and water infrastructure construction etc. He has exceptional IT skills which he employs for the improvement project efficiency.

Wale Odeleye has a Master of Science degree in Civil Engineering from the prestigious University of East London UK, PRINCE2 Practitioner and Foundation Certificates from Project Management Training UK, Diploma in Site Engineering, ENKA UK, Post Graduate Diploma in Civil Engineering, Federal University of Technology and a Higher National Diploma in Civil Engineering from The Polytechnic Ibadan. He has also undergone Health and Safety trainings from CITB UK.

Adesina Araoye FCA

ED Finance

Mr. Araoye is an astute Accounting Professional with over 30 years experience spanning from the Automobile to Banking to Telecommunication Industries to mention a few. He has functioned in managerial positions delivering tactical solutions that fostered long-standing profitable business relationships.

As a General Manager (Research & Planning) of Odu'a Group, a conglomerate with hands in varying business segments, he was instrumental to many strategic partnerships that turned the tide of the group around. He serves an Audit and Financial Advisory Services Management Consultant to a number

of enterprises where he lends his expertise to scale up the bottom line of his teeming clients. He is a detail-oriented and articulate professional with a penchant for driving the coveted change businesses require to grow.

Mr Araoye holds a bachelor's degree in Accounting from the University of Ilorin, Kwara State as well as Ordinary National Diploma (OND) in Banking from The Polytechnic, Ibadan. He is a Fellow of the Institute of Chartered Accountants (ICAN) and an alumnus of the prestigious Lagos Business School where he undertook and Completed Advanced Management Programme.

Jesulayomi Oyelami

Company Secretary

Barrister Oyelami is a budding legal luminary who prides herself in delivering personalized legal advisory services to enterprises to ensure their operations and transactions are done within the approved constitution of the Federal Republic of Nigeria and other relevant business regulatory guidelines.

She has served in litigation and Corporate and Commercial Transaction roles allowing her to dabble in different sectors of the legal practice.

She is a pathfinder who has singlehandedly and jointly spearheaded a couple of NGOs targeted at empowering the next generation of leaders in the nation. Her outreach programs have continued to experience noteworthy success and recognition.

Jesulayomi Oyelami is a Law Graduate from Afe Babalola University (ABUAD), Ado Ekiti and the Nigerian Law School. She is a member of Nigeria Institute of Chartered Arbitrator (ACArb) and Nigerian Society of International Law.

Engr. Constance Odiase (MNSE, R.Eng.(COREN), MEM)

Partner, Safety and Administration

Engr. Odiase is an exceptionally dynamic engineer with a proven track record for delivering excellently on every project. She is a Health, Safety and Environment (HSE) professional who employs an outstanding skills-set in providing bespoke safety management solutions to businesses to improve safety performance, reduce lost work time and drive positive safety cultures while mirroring global best practices.

She is a seasoned trainer and facilitator with over 500 combined hours of varying safety trainings under her belt. She was one of the highly sought-after

speakers at the inaugural Lagos Vision Zero Conference, a forum aimed at achieving zero fatalities, injuries and harm in the nation's working economy.

Engr Odiase has a bachelor's degree in Petroleum Engineering from the University of Benin, Edo State and a Masters of Engineering Management degree in Project Management from the University of Ibadan, Oyo State. She is an alumnus of the respected Association of Power Utilities in Africa (APUA) and African Network Centers for Excellence in Electricity (ANCEE) scholarship programme for high-performing utility workers in Africa. She is also an alumnus of the United States Agency for International Development (USAID) Power Africa Nigeria Power Sector Program Professional Skills Development Course for Women in the Power Sector. Engr. Odiase is National Examination Board for Occupational Safety and Health (NEBOSH) certified, an ISO 45001:2018 Lead Auditor, Registered Engineer with the Council for the Regulation of Engineering in Nigeria (COREN), a member of the Nigerian Society of Engineers (NSE) and member of the Nigerian Institution of Power Engineers (NIPE).

PRODUCTS & SERVICES

At Peleah, our products are manufactured to ISO quality standards and we offer appreciable warranty in line with the applicable terms and conditions. We supply, install and maintain the following.

- ★ Engineering Design, Procurement and Construction
- ★ Maintenance of Power & Distribution Substations
- ★ Building & Civil Engineering Design and Construction
- ★ Supply of Power Distribution Equipment
- ★ Meter Asset Provider (MAP)
- ★ Metering Services Provider (MSP)
- ★ Debt Reconciliation & Recovery Services
- ★ Feasibility Studies and Engineering Evaluation
- ★ Installation and Maintenance of Power Supply Infrastructures
- ★ On-grid and Off-grid Power Supply Solutions
- ★ Renewable Energy Solutions
- ★ Mechanical and Electrical Engineering
- ★ Safety Management Systems
- ★ Supply and Maintenance of Safety Gears and Equipment
- ★ Energy Audits
- ★ Safety Audits
- ★ Trainings

We also offer consultancy services in effective energy management and audit models, safety engineering, safety management and power supply and distribution systems.

QUALITY, HEALTH, SAFETY & ENVIRONMENTAL POLICY

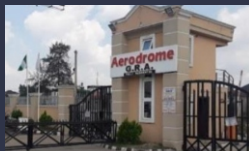

Peleah Company Limited is fully committed to conducting her business in a custom that is demonstrative of high quality and safety standards aimed at reducing inherent hazards to all stakeholders to as low as practicable within the confines of all applicable national and international regulations and guidelines. Our Occupational Health & Safety Policy is herewith attached.

RECENT PROJECTS EXECUTED IN NIGERIA
